

Amp'ed RF Technology Product Change Notes

07/09/2015

Subject: WF43S and WF43H part number change**Effective date:** 07/09/2015**Details:**

Due to minimal product differentiators between the WF43S and the WF43H; we have decided to stop making and selling the WF43H. Instead we will continue to make just one version of the WF43 module. This will be called the WF43.

No module hardware revisions or firmware changes are required for this change.
